

Introducing KDDI Vist@Finder Remote Operations Supporting System for Vuzix M300 Smart Glasses

ROCHESTER, NY, March 17, 2017 – Vuzix® Corporation (NASDAQ: VUZI), ("Vuzix" or the "Company"), a leading supplier of Smart Glasses, Augmented Reality (AR) and Virtual Reality (VR) technologies and products for the consumer and enterprise markets, is pleased to announce that the Vuzix M300 Smart Glasses will be prominently on display with KDDI Vist@Finder to relay secure, high-quality video remotely and hands-free with smart glasses at CeBIT. The KDDI Vist@Finder solution leverages the camera and head-mounted display of the Vuzix M300 Smart Glasses to overlay AR images on the user's real-time view to aid in remote support applications. Technicians can work more efficiently and hands-free by viewing the AR image on the M300, as opposed to holding a smartphone or tablet to view the screen.

[KDDI Vist@Finder](#) is a remote operations supporting system that allows videos taken by smartphones, tablets, and mobile PCs, and now includes smart glasses to relay remotely from the field over various types of networks, simply, securely, and in high quality. The system provides a variety of functions, including intuitive operational instruction by AR through live audio and video streaming, recording of on-site video, and hands-free transmission with wearable cameras. The service is available in English, Japanese, Chinese, and Korean.

KDDI Vist@Finder will be showcased on the Vuzix M300 at CeBIT, one of the largest and most internationally represented computer expos, at the KDDI booth located in Hall 4 — A38 (17). CeBIT will take place from March 20 through March 24 in Hannover, Germany. For more information, please visit the CeBIT official website at <http://www.cebitt.de/en/>.

"Vuzix is excited to pair up our next generation M300 Smart Glasses with KDDI Vist@Finder remote operations supporting system to enable hands-free video transmission via Smart Glasses," said Paul Travers, President and Chief Executive Officer at Vuzix. "Our M300 Smart Glasses feature a 13-megapixel, 1080p video and image-stabilized auto-focus camera that is ideal for relaying high-quality video content remotely in the field."

About KDDI

KDDI, a Fortune Global 500 company, is one of Asia's largest telecommunications and ICT solution providers, with approximately US\$40 billion in revenue annually. Since its establishment in 1985, KDDI has expanded its presence into 28 countries and 63 cities, with over 110 offices around the world. Strong support for its customers' global businesses through cutting-edge technologies, seamless networks, and ubiquitous, powerful IT infrastructure propel KDDI into the future.
