

Vuzix M400 Smart Glasses Now Available as Part of Librestream Onsite Remote Support Business Continuity Program

Librestream providing their business continuity software package to new corporate customers for free using smart glasses impacted during the coronavirus pandemic

ROCHESTER, NY, March 19, 2020 – [Vuzix® Corporation](#) (NASDAQ: [VUZI](#)), ("Vuzix" or, the "Company"), a leading supplier of Smart Glasses and Augmented Reality (AR) technology and products, together with Librestream, will be offering free access to Librestream's secure remote expert assistance software consisting of their Onsite augmented reality platform. Today they announced that [Librestream's Onsite Connect remote expert software](#) will be provided to qualified new customers at no charge for a limited period to the Vuzix M400 Smart Glasses customers to help companies facing business continuity and worker safety challenges related to COVID-19.

The Vuzix M400 Smart Glasses are certified as part of the Onsite Optimized™ program. Using Onsite Connect, frontline workers can see live or recorded video, pictures, and onscreen mark-ups on the M400 display. Remote collaborators can also remotely view live content, share and remotely control the Vuzix M400 camera, adjusting lighting, zoom, and capturing HD or thermal images, providing teams with real-time data and knowledge assets.

"We felt it was important to provide a free offer to help companies that urgently need to overcome the distance barrier in light of the coronavirus. In some regions, we've seen usage of our Onsight platform increase over 700% and we recognize that companies need to replace travel with virtual collaboration. As an Onsight Optimized solution, the Vuzix Smart Glasses provide an excellent industrial hands-free option for enterprises," shared Charlie Neagoy, VP Business Development at Librestream.

"We are pleased to partner with Librestream in bringing this hands-free remote expert experience to companies facing immediate operational challenges. The combined solution of Onsight Connect with the Vuzix M400 Smart Glasses is a robust voice driven application that has been optimized for enterprise customers," said Paul Travers, President and Chief Executive Officer at Vuzix.

Librestream will for a limited time provide its Onsight Connect remote expert package to qualified organizations, subject to a 20-user license cap, who are new to this capability. The package includes pre-configured Onsight Connect remote expert software and materials to get up and running within 24 hours. To initiate the qualification, organizations must [fill out their information online](#) and agree to provide feedback. There is no commitment to purchase of any kind.

Vuzix and Librestream will also be offering ongoing training webinars to help new users get up and running quickly. You can view a schedule of the upcoming webinars on the Vuzix [website](#), which will be updated frequently.

Last week, the two companies announced an integrated hands-free thermal imaging solution for frontline workers to monitor body temperatures from a safe distance. This new offer enables a broad range of worker safety-focused use cases that range from remote inspections of critical equipment and diagnostic assessments to telemedicine consults. Given the nature of these challenging field environments, security, data privacy and low bandwidth optimization are all critical requirements that are included in this solution.
