

Vuzix Releases M300 OS 1.2 Firmware Update and SDK 1.0 for Registered Developers

ROCHESTER, NY, July 13, 2017 – [Vuzix® Corporation](#) (NASDAQ: [VUZI](#)), ("Vuzix" or, the "Company"), a leading supplier of Smart Glasses, Augmented Reality (AR) and Virtual Reality (VR) technologies and products for the consumer and enterprise markets, is pleased to announce that the company has released a major OS upgrade for the M300 Smart Glasses along with a new SDK for registered Vuzix developers.

The OS 1.2 software update delivers new features as well as improves and optimizes several out of the box feature sets and applications for the M300 Smart Glasses, including:

- A new enterprise grade built-in barcode scanning application from [Manatee Works](#).
- The release of [Sensory's](#) TrulyHandsfree™ voice control allowing users to easily navigate the M300 hands-free via voice command.
- Dual audio paths that allow for concurrent use of the voice recognition engine while simultaneously streaming or recording audio.
- Enabled dual microphone noise cancellation capabilities, which optimize the performance of voice recognition and audio recording in noisy environments.
- Optimized the M300's power management and sleep mode functionality.
- Enhanced the camera sub systems enabling more advanced modes and improved video streaming performance.
- Streamlined procedures for wireless screen casting via Miracast from the M300.
- Improved Wi-Fi network connectivity and authentication via a standard Android keyboard or the new built in QR code and the bar code scanner application.
- The new OS is available now for download via Over the Air (OTA) system update along with an updated M300 FAQ section (<https://www.vuzix.com/support>).

In addition to the OS 1.2 firmware update, Vuzix just released the M300 SDK version 1.0 replacing the prior Alpha SDK. This new SDK combined with the standard Android SDK gives developers access to barcode scanning, camera, sensors, Bluetooth, file database, google cloud messaging, maps, and tools to more easily build the features into developer applications. Interested developers can register on the Vuzix website through the following link: <https://www.vuzix.com/Developers>.

"The OS 1.2 firmware update and release of the M300 SDK 1.0 are important M300 product advancements", said Paul Travers, President and Chief Executive Officer at Vuzix. "We are thankful for our team of VIPs and their patient and dedicated support to help make the M300 a success".
