

Vuzix Blade Smart Glasses Now Available on Amazon Features Alexa Built-in and DJI Drone Support

- *70 popular applications from streaming video to social media now available*
- *Drone Support included for most popular DJI drones*
- *Features Alexa Built-in*

ROCHESTER, NY, July 22, 2019 – [Vuzix® Corporation](#) (NASDAQ: [VUZI](#)), ("Vuzix" or, the "Company"), a leading supplier of Smart Glasses and Augmented Reality (AR) technology and products, today announced the Vuzix Blade Smart Glasses are now available directly from [Amazon.com](#) and are Amazon Prime eligible.

The Vuzix Blade has previously only been available directly from Vuzix but now customers have the option of also buying directly from Amazon.com.

In addition to all the powerful capabilities of the Vuzix Blade and its expanding software suite including DJI drone support, the Vuzix Blade Smart Glasses now have Alexa Built-in official certification. This means the Vuzix Blade Smart Glasses feature a full on-device integration of Alexa, so the smart glasses can accept voice commands directly, without the need for a separate Alexa device.

With Alexa, Vuzix Blade users can book an Uber, set timers, create lists, hear and display the news or weather, control smart home devices, and more. Alexa lives in the cloud, so it's always getting smarter, adding new capabilities that are delivered to your device automatically. Using Alexa on your Vuzix Blade Smart Glasses is simple and hands-free – just ask, and Alexa will respond instantly. The user receives back voice and visual information based on their request directly on their Vuzix Blade.

"The custom Alexa application developed by Vuzix has been certified by Amazon, paving the way for the Vuzix Blade Smart Glasses to become an Alexa Built-in smart glasses device. The software team at Vuzix worked closely with the Alexa team at Amazon to offer a complete Alexa integration to Vuzix Blade customers," said Paul Travers, President and CEO of Vuzix. "Now that we have the Vuzix Blade available for easy purchase on Amazon.com, we see this offering as the ideal method to make available Amazon Alexa's cloud-based voice services to Vuzix smart glasses."
