"The Qualcomm Snapdragon XR1 platform with built-in Artificial Intelligence (AI) capabilities offers a platform of improved interactivity, power consumption, and thermal efficiency," said Paul Travers, President and Chief Executive Officer at Vuzix. "The Vuzix M400 Smart Glasses were designed to be best in class for enterprise and, in addition to the powerful XR1, includes a larger memory profile, superior voice recognition and noise cancelling, an improved touchpad with multi-finger support, built-in GPS, OLED display and much more. The M400 is, by almost every measure, an order of magnitude faster than current solutions in the market. The performance improvements also mean that for less processor intensive applications, power consumption is expected to be much less. Qualcomm Technologies has been a great partner for Vuzix and we look forward to expanding our relationship to support the burgeoning AR smart glasses market."

The Vuzix M400 Smart Glasses and Vuzix Blade will be showcased at EWTS in Dallas, TX on September 17-19 at the Vuzix Booth #727.
