

SpringCity Energy Technicians Increase Productive Output by 40% Using Vuzix M400 Smart Glasses

ROCHESTER, NY, October 13, 2020 – [Vuzix® Corporation](#) (NASDAQ: [VUZI](#)), ("Vuzix" or, the "Company"), a leading supplier of Smart Glasses and Augmented Reality (AR) technology and products, announced that SpringCity Energy has commenced deployment of Vuzix M400 Smart Glasses to perform on-site inspection and maintenance including work instructions, remote technical support and on-the-job training to service solar and renewable energy customers in Australia.

Through the use of the Vuzix M400 Smart Glasses to train junior technicians from the comfort of an office instead of standing over their shoulder and watching them, SpringCity Energy technicians can now train multiple junior technicians each day, which has resulted in significant cost savings. By using smart glasses-based work instructions, Spring City eliminated the need for paper-based instructions, improved maintenance checks (no maintenance checks missed or overlooked) and increased productive output by 40%.

"The Vuzix M400 is an exceptional product, offering an array of different applications for people and businesses of many different industries. As a consistent user of the Vuzix M400 smart glasses, I believe there are problems within multiple industries that will be resolved with the M400 that haven't been discovered yet. Vuzix and its partners like AVR Lab have not only produced a game changing device but offer and deliver exceptional service when needed," commented Tom Fleay, Co-owner and Director at SpringCity Energy.

"Vuzix Smart Glasses are being used all over the world to support business continuity during the COVID-19 pandemic," said Paul Travers, President and CEO of Vuzix. "SpringCity Energy is deploying Vuzix Smart Glasses into operations to work smarter, save money, leverage human capital knowledge and gain a competitive advantage."

SpringCity Energy implementation of the Vuzix M400 Smart Glasses to provide work instructions and training support for junior technicians can be viewed through the following links: SpringCity training [video](#) and SprintCity workflow [video](#).
