

Vuzix Announced Collaboration with Inseego to Support 4G and 5G Global Smart Glasses Remote Worker Connectivity Bundle Initiative

ROCHESTER, NY, October 23, 2019 – [Vuzix® Corporation](#) (NASDAQ: [VUZI](#)), ("Vuzix" or, the "Company"), a leading supplier of Smart Glasses and Augmented Reality (AR) technology and products, today announced a collaboration with Inseego to support the rollout of a global turnkey Vuzix Smart Glasses Remote Worker Connectivity Bundle for remote enterprise workers with 4G and 5G connectivity options.

This bundle, which is expected to become commercially available for the first time for customers in the United States in December 2019, is powered by the Sprint Curiosity™ IoT core network and is being introduced to the market with the Inseego MiFi 8000 hotspot.

The Inseego MiFi 8000 hotspot raises the bar in mobile connectivity with LTE Advanced-Pro (cat. 18) technology and 5x carrier aggregation for high peak data rates and the best possible 4G LTE broadband experience. It provides all-day battery life and can support multiple connections via Wi-Fi or a tethered USB-C connection, making it an ideal connectivity platform for the Vuzix remote smart glasses enterprise worker.

"The suite of Inseego product offerings solves an important challenge of connectivity for remote enterprise customers and this relationship will help enable a seamless out of the box experience for our enterprise customers," said Paul Travers, President and CEO of Vuzix. "We see this relationship with Inseego as a strategic relationship that represents a new avenue to develop connected solutions and new product configurations that enhance the customer experience with 4G LTE Advanced and 5G connectivity options that will drive better business performance for remote workers in the United States and around the globe."

"We're thrilled to work with Vuzix to provide the Inseego MiFi 8000 to their enterprise customers," said Inseego EVP of IoT & Mobile Solutions Ashish Sharma. "Our new relationship with Vuzix enables us to offer Inseego 4G and 5G products to their global enterprise subscriber base for the first time."

Vuzix Smart Glasses will be on display at the Inseego meeting room, West Hall, P.123 at Mobile World Congress Los Angeles October 22-24 in Los Angeles, California.

About Inseego Corp.

Inseego Corp. (Nasdaq: INSG) is an industry pioneer in 5G and intelligent IoT device-to-cloud solutions that enable high-performance mobile applications for large enterprise verticals, service providers and small-medium businesses around the globe. Our product portfolio consists of Enterprise SaaS solutions and IoT & Mobile solutions, which together form the backbone of compelling, intelligent, reliable and secure IoT services with deep business intelligence. Inseego powers mission-critical applications with a "zero unscheduled downtime" mandate, such as asset tracking, fleet management, industrial IoT, SD-WAN failover management and mobile broadband services. Our solutions are powered by our key innovations in purpose-

built SaaS cloud platforms, IoT and mobile technologies including the newly emerging 5G technology. www.inseego.com #Making5Greal
