

Vuzix Receives Follow-on Smart Glasses Orders from Pixee Medical to Support European Commercialization of their Augmented Reality Smart Glasses Solution for Orthopedic Surgery

- Surgeons complete 40th AR Knee+ Total Knee Replacement Surgery guided by the Pixee Medical augmented reality navigation system and Vuzix M400 Smart Glasses

- Pixee Medical to seek FDA 510k clearance in early 2021 to expand into US markets

ROCHESTER, NY, December 2, 2020 – [Vuzix® Corporation](#) (NASDAQ: [VUZI](#)), ("Vuzix" or, the "Company"), a leading supplier of Smart Glasses and Augmented Reality (AR) technology and products, today announced that Pixee Medical, a France-based medical company, has placed follow-on M400 Smart Glasses orders to support the commercialization and rollout of the Pixee Medical augmented reality navigation system across Europe.

The first AR Knee+ total knee replacement surgery guided by their proprietary solution running on Vuzix M400 Smart Glasses was completed in Paris in June 2020 and subsequently over the last 5 months more than 40 surgeries have been completed in different hospitals and clinics across Europe. Pixee Medical also recently signed up several distributors in Europe and is in the process of finalizing and onboarding several new additional distribution partners.

"Pixee Medical is making great commercial progress across Europe, especially in France and Belgium, and will be expanding our presence in the Germany, Netherlands, Switzerland, Italy, Greece, UK and the Australia as well. Our forthcoming FDA 510(k) clearance will also allow Pixee Medical to scale our business quickly

into the United States. We're excited to work in partnership with Vuzix to market this solution to the European Union and other CE mark geographies through implant manufacturers and distributors," commented Sébastien Henry, Founding President of Pixee Medical.

"The team at Pixee Medical created an innovative path to bring the Vuzix M400 Smart Glasses into the operating room to perform knee replacement surgeries and continues to make significant progress in the operating theater across Europe. We look forward to supporting the worldwide distribution of their innovative AR solution, particularly in the large U.S. market following FDA approval," said Paul Travers, President and Chief Executive Officer at Vuzix.

About Pixee Medical

The Pixee Medical company was founded in 2017 with the goal of creating high-performance, computer-assisted surgical solutions using proprietary computer vision and artificial intelligence technologies, while remaining affordable in the challenging health system environment. Our team is composed of experts in orthopedic and computer assisted surgery with recent graduates at the forefront of technology. Our vision is to augment surgeon's capabilities by creating new clinical pathways that are both efficient and effective. We are marketing surgical devices in Europe and abroad, in compliance with our ISO 13485 certification, CE marking and to enter soon the US market with a forthcoming FDA 510(k).
