Your Blade is shipped with a partial charge. It is recommended that the battery be fully charged for first-time use.

**Power On**
- Press and hold the power button for three seconds

**Power Off**
- Press and hold the power button for three seconds
- Select Power Off from the menu (one-finger tap on the touchpad)

A list of apps is displayed horizontally allowing users to view different product features. One app is displayed at a time. Swipe the touchpad forward or backward to navigate through the app list.

**BladeOS**
BladeOS has a built-in keyboard for character entry when needed. For in-depth information on this and other BladeOS features, refer to:

www.vuzix.com/support/blade-smart-glasses

**Companion App**
Download and install the Vuzix Blade Companion App from the App Store or Google Play.

Once installed, tap Start Setup and follow the instructions on the screen to connect your iOS or Android smartphone with your Blade.

---

**Box Contents:**

The Blade safety spectacles are designed to protect the wearer against mechanical impact through impact rating testing. The Blade safety spectacles will provide a secure and comfortable fit and protect against common hazards. These safety spectacles are used in a wide range of applications including:

- Construction
- Engineering
- General assembly
- Inspection work
- Light duty maintenance and repair

These safety spectacles do not provide unlimited eye protection. You must follow the instructions completely before using the eye protection.

No spare parts are available for Blade Smart Glasses. The maximum life of a product is 2 years. If protective eyewear has been scratched or otherwise damaged immediately replace.

When stored correctly at a cool and dry place without use, the maximum lifetime of a safety eyewear is 5 years.

Some general guidelines for the care of eye protection:

- Always check with supervisory personnel to ensure that you are being given the proper protection relative to those specified in this document.
- This eye protector only protects against physical impact hazards but is not unbreakable.
- Impact should not be used and should be immediately replaced.
- Pitted or scratched lenses reduce vision and should be replaced immediately.
- Always perform a visual inspection of the Blade Smart Glasses prior to use.

This product has been shown to meet the basic safety requirements of (EU) 2016/425 and EN 166:2001 and EN 170:2002 ANSI_ISEA Z87.1:2015.

The applicable regulations can be viewed on the EU Declaration of Conformity link: https://www.vuzix.com/support/legal
